

It's almost CHRISTMAS time!!

It's so hard to believe that 2022 is almost over.

We here at Cornerstone are SO Grateful for your partnership in praying for every client that walks through our doors!

Our prayer is for our clients to feel the Love and compassion of Jesus as they move about our house.

As we celebrate the birth of our Savior and King, may you feel the presence of Jesus in your homes.

Thank you for praying for us and with us! HAPPY NEAR YEAR!

### **Prayer Requests:**

-We had a young patient come in for an appointment this week who was very abortion determined. During the ultrasound, our nurse was not able to see what she would expect to see at the stage of pregnancy she is in and highly encouraged her to go to the hospital. We are praying that she was able to get to the hospital and receive the care she needs.

Above all, we pray that the Lord would work in her heart and draw her to Himself.

-This week we also had another young patient come in for an appointment. She revealed that she had been forced to do things she did not want to do and was afraid her mom might find out.

We are praying she schedules a follow up appointment so that we can assist her further.

In recent conversations she has been distressed. Please pray for her safety, that the peace of God would rule and reign and that she can find a way to get to her follow up appointment.

-One of our clients who has been taking parenting classes with us recently had to quit her job due to not having childcare. We are praying that new connections open up for her so that she can provide for her family.

She said recently that she doesn't feel like herself when she isn't consistent with parenting classes.

We are thankful that we can encourage and support her as much as we can through the resources, we have available.

- Pray for serenity and sacredness to be in our building.

- Pray our clients feel and sense the Love of Jesus in us and in this building

### **Client Story:**

-Baby M was born on September 19<sup>th</sup>. She was not growing, continuing to lose weight, and they could not get her temperature regulated.

Baby M has been diagnosed with PKU, Phenylketonuria. She was in the NICU at Hershey Medical Center but is home now and hitting normal infant milestones.

The client has expressed gratitude to for all the prayers and support.

### **From the Director:**

#### **Prayer**

- Please pray that God will sustain cornerstone through this economic recession and move on the hearts of donors who are able to continue to give.

- Please pray for wisdom and guidance from the Holy Spirit for our staff during appointments with women seeking abortion.

Some of these encounters weight heavy on our hearts.

- Pray that local public Schools would invite our Healthy Lifestyles Coaches to come and present in the classroom about Healthy Relationships;

and that we would be a positive influence on this generation.

- Pray for wisdom for the board of directors as they govern the ministry and make major financial decisions.

**Praise**

- We are grateful for the gift of Jesus Christ, who we celebrate this Christmas Season!
- We are grateful for individuals, churches and businesses that support the mission and vision of Cornerstone!

Sincerely,

*Kristi*
